Section III - Graduation rates

Based on your institution's response to the predominant calendar system question (B3) on the Institutional Characteristics survey from the IPEDS Fall 2009 Data Collection, your institution must report graduation rates data using a

Full-Year Cohort (September 1, 2006 - August 31, 2007)

A fall cohort is used by institutions with standard academic terms (semester, trimester, quarter, 4-1-4, other academic). A full-year cohort is used by institutions offering primarily occupational/vocational programs and operating on a continuous basis.

In the columns below, report the status of the Full-time, First-time students reported in the cohort in Col 10. The cumulative number of those students who completed their program within 150% of normal time as of August 31, 2009 should be reported in Col 11. Report transfers-out who did not complete a program in Col 30. If the mission of your institution includes providing substantial preparation for students to enroll in another eligible institution WITHOUT having completed their programs, you should report transfer-out data in column 30. A school is required to report only on those students that the school knows have transferred to another school. A school must document that the student actually transferred. If it is not part of your mission, you may report transfer-out data if you wish. Report exclusions from the cohort in Col 45. The ONLY allowable categories for this column are:
 students who died or became permanently disabled
 students who left school to serve in the armed forces (or have been called up to active duty)
 students who left school to serve with a foreign aid service of the Federal Government
 students who left school to serve on an official church mission
 Col 49 [non-completers (still enrolled + not enrolled) and completers > 150% of normal time] will be calculated for you
 Col 55 - Completers within 100% - this is a subset of column 11 (completers within 150%). These data are being requested so they can be preloaded into next year's Graduation Rate 200% survey form

Cohort of full-time, first-time students
